PRODUCT DESCRIPTION

its design incorporates many aesthetic elements, from material and texture to slim luster, deduce the beauty of science and technology.

Cabinet pannel size

	P2.98	P3.91	P4.81	P6.25
Module size (WxH) (mm)	250×250	250×250	250×250	250×250
Pixel pittch (mm)	2.98	3.91	4.81	6.25
Module Ressionution (WxH) (mm)	84×84	64×64	52×52	40×40
Cabinet Size (WxHxD) (mm)	500X500X80	500X500X80	500X500X80	500X500X80

DELICATE STRUCTURE

TECNOVISION has the domestic top design team, the design innovation has its own unique philosophy, with a number of core technologies. Innovative structural design, avant-garde body lines, give you extraordinary experience.

Humanization Handle

Four corner side with humanization anti-skidhandle. Compared with traditional cabinet, it is more beautiful and convenient.

Two-way maintenance

In order to meet the various aspects of the rental led screen field, a new generation of rental led display design for two-way maintenance, from the front and back of the screen can come up with the unit board and power supply, it will more easy for repairing. *(Full front maintain indoor cabinet, not only module front maintain, but also power supply.)*

Intelligent management

The cabinet backside with LCD display which shows the working conditions and can record the screen lifespan.

Inner connection

Seeking for beauty and convenience installation and at the same time in order to keep cables from environment corrosion, our cabinet choose inner connection. Air-plug with retractable button which can hide in cabinet.

EXCELLENT PERFORMANCE

TECNOVISION rental series LED display has a high contrast, high refresh rate, high gray, high-definition display and other superior performance, can meet the needs of the application of the ultimate vision.

High definition display

It delivers a truly amazing picture in every details with extraordinary pixels producing an image that is HD quality in an Led Screen.

Wide Color Gamut

Under low light, display gray-scale near-perfect performance, real restore image information, make details clearly visible, without information loss.

High refresh

Meet the TV camera shooting, the observer either in static or dynamic images, no jitter, no ripples, stroboscopic phenomenon, which can give the viewer a long time watching the screen, can not generate fatigue and discomfort.

APPLICATION

TECNOVISION is an expert LED rental display manufacturer specialized in R&D full color LED high definition display with ultra light weight, So far, our products are extensively applied in sport stadium, stage show , ceremony gala , exhibition display , etc.

Technical specificationS(500X500mm)

	P2.98	P3.91	P4.81	P6.25
Pixel Configuration	SMD2121	SMD1921	SMD2727	SMD3535
LED Configuration	1R1G1B	1R1G1B	1R1G1B	1R1G1B
Write Balance Ratio	3000:1	3000:1	3000:1	3000:1
Pixel Pitch(mm)	2.98	3.91	4.81	6.25
